PROFILE SUMMARY

Computer Engineering student with hands-on experience in full-stack web development (Next.js, Supabase) and cloud infrastructure (AWS, GCP, Kubernetes). Passionate about building real products and automating deployments. Looking for a Software Development internship to contribute to both product and platform.

EDUCATION

Mar 2023 – Present	Bachelor of Computer Engineering Sripatum University, Bangkok
May 2019 – Mar 2021	Thai-Austrian Technical College Sattahip , Chonburi Information Technology (IT)

EXPERIENCE

Water Vending Machine System – Freelance (via Advisor)

- Supported end-to-end deployment of IoT vending machine systems across 50+ sites, covering hardware assembly (PCB soldering, chip diagnostics), SIM-based network configuration, and on-site system/API troubleshooting in collaboration with backend engineers.

PROJECT

FoodRoll – Bangkok Restaurant Discovery App (Personal Project)

- Built FoodRoll, a full-stack restaurant discovery web app using Next.js 14 and Supabase (PostgreSQL) with a gacha-style UX; implemented PostGIS geospatial queries for distance-based search and a caching layer for Google Places data to reduce API costs; identified query performance trade-offs on large-radius searches and proposed GiST index optimization
<https://foodroll-bkk.vercel.app/>

TourGuard – Silver Medal, I-New Gen Inventors Award 2025 (NRCT)

- Built an award-winning smart streetlight system using Python, YOLOv8, and Flask to detect dangerous animals, triggering flashing lights and real-time LINE Messaging API alerts.

DevSecOps Lab (forge-ops) – (Personal Project)

- Kubernetes-based 3 microservices platform with Terraform, CI/CD security pipeline (Gitleaks, CodeQL, Trivy), and full observability stack (Prometheus, Grafana, Loki) plus incident response runbooks. <https://saranphattree-me.vercel.app/work/DevSecOps1>

TECHNICAL SKILLS

Frontend : Next.js, React, Tailwind CSS, Framer Motion

Backend : Node.js, REST API, Next.js API Routes

Database : PostgreSQL, Supabase, PostGIS

Cloud AWS : EC2, S3, VPC, IAM

Container & Orchestration: Docker, Kubernetes (Kind), Helm, Terraform

CI/CD & Security: GitHub Actions, Gitleaks, Trivy, Bandit

Observability: Prometheus, Grafana, Loki

Systems : Linux, SSH, Virtual Machines

AWARDS & CERTIFICATIONS

- AWS Cloud Practitioner Essentials – AWS Skill Builder (2025)
- CCNA Network Lab Professional – NetPrime Training (2025)
- Network Fundamentals for Network Adjacent Engineers (NETFND v1.0) – Cisco
- Computer Programming (Intermediate & Advanced) – Mahidol MOOC
- Google Cloud Skills Boost (GCP Chaoyo SS6) – 17+ badges: Cloud Computing, Security, Kubernetes, Gemini AI (2026) skills.google/public_profiles/a5a766a1-9ea1-43fd-94af-736cee17ba2c
