PROFILE SUMMARY

Computer Engineering student with hands-on experience in full-stack web development (Next.js, Supabase) and cloud infrastructure (AWS, GCP, Kubernetes). Passionate about building real products and automating deployments. Looking for a Software Development internship to contribute to both product and platform.

EDUCATION

Mar 2023 – Present	Bachelor of Computer Engineering Sripatum University, Bangkok
May 2019 – Mar 2021	Thai-Austrian Technical College Sattahip , Chonburi Information Technology (IT)

EXPERIENCE

AAppoint – AI Agent / Backend Engineer (Freelance) May 2026 – Present

- Developed dual-facing AI agents using LangChain and Gemini – a B2C agent for customer restaurant booking and a B2B agent assisting shop managers with booking summaries, cancellations, and shop information – with Redis for short-term memory and PostgreSQL for long-term memory.
- Expanded agent capability from text-only responses to full booking-to-payment workflows, integrating with LINE OA via custom, token-authenticated API endpoints.

PROJECT

FoodRoll – Bangkok Restaurant Discovery App (Personal Project) (2026–Present)

- Built FoodRoll – a gacha-style restaurant discovery app using Next.js 14 and Supabase/PostgreSQL. Implemented PostGIS-based distance search, a Google Places caching layer to reduce API costs, and GiST index optimization for large-radius query performance.
<https://foodroll-bkk.vercel.app/>

TourGuard – Silver Medal, I-New Gen Inventors Award 2025 (NRCT)

- - Silver Medal, I-New Gen Inventors Award 2025 (NRCT) – Smart streetlight detection system
<https://saranphattree-me.vercel.app/work/I-NewGen>

DevSecOps Lab (forge-ops) – (Personal Project)

- Kubernetes-based 3 microservices platform with Terraform, CI/CD security pipeline (Gitleaks, CodeQL, Trivy), and full observability stack (Prometheus, Grafana, Loki) plus incident response runbooks. <https://saranphattree-me.vercel.app/work/DevSecOps1>

TECHNICAL SKILLS

Frontend: Next.js, React, Tailwind CSS

Backend: Node.js, REST API, PostgreSQL, Supabase

AI Agent: LangChain, Gemini, Redis, Tool Calling, Context/Memory Management

Cloud & DevOps: AWS (EC2, S3, VPC, IAM), Docker, Kubernetes, Terraform

CI/CD & Security: GitHub Actions, Gitleaks, Trivy

Observability: Prometheus, Grafana, Loki

AWARDS & CERTIFICATIONS

- AWS Cloud Practitioner Essentials – AWS Skill Builder (2025)
- CCNA Network Lab Professional – NetPrime Training (2025)
- Network Fundamentals for Network Adjacent Engineers (NETFND v1.0) – Cisco
- Computer Programming (Intermediate & Advanced) – Mahidol MOOC
- Google Cloud Skills Boost (GCP Chaiyo SS6) – 17+ badges: Cloud Computing, Security, Kubernetes, Gemini AI (2026) skills.google/public_profiles/a5a766a1-9ea1-43fd-94af-736cee17ba2c
